Re: Revision of Reclamation Contract, Clinton Mine, M/049/006, and Pleasant View Pit, M/057/003, Utah and Weber Counties, Utah

Dear Mr. Rhine:

The Division received replacement sureties for the Clinton Mine and the Pleasant View Pit from Seattle First National Bank. The replacements updated the old ILOC language to conform to the Division's most recent ILOC form. No changes were made in the surety amounts. The Division Director signed the sureties accepting these forms.

We have updated page 2 of 9 of the Reclamation Contracts to reflect the new ILOC numbers (_____) for the Clinton Mine and _____ or the Pleasant View Pit). This was the only change needed on the Reclamation Contract; for this reason, we did not have to present the replacement sureties to our Board for their approval. These updated pages are enclosed for your files.

We are returning the old original ILOC sureties (numbers _____ Clinton Mine, and G186310, Pleasant View Pit), to Seattle National Bank for their disposal. We are also returning to Seattle National Bank copies of the new sureties with the Division Director's acceptance signature as they requested.

Please contact me if you have any questions in this regard.

Sincerely,

Anthony A. Gallegos
Reclamation Engineer
